

ARMY INFORMATION TECHNOLOGY CONFERENCE

6-June-06

"Solutions for the Army
Enterprise... price (d) less!"

Mr. Vernon Bettencourt

Deputy, Chief Information Officer/G-6

CALL TO DUTY: 230 YEARS OF SERVICE TO OUR NATION

Purpose

**Convey Army CIO/G-6
strategic direction and
selected cost saving
processes and initiatives
related to that direction**

CIO/G-6 Vision, Mission and Goals

Vision:

Deliver a joint net-centric information enterprise that enables warfighter decision superiority.

Mission:

Provide architecture, governance, portfolio management, strategy, C4 IT acquisition oversight and operational capabilities to enable joint expeditionary net-centric information dominance for the Army.

Goals:

1. Develop & maintain a secure, seamless, interdependent LandWarNet network by leading development & enforcing the use of an integrated enterprise architecture.
2. Lead enterprise integration to achieve decision superiority by transforming processes, applications & data into network-centric capabilities across the Army.
3. Protect and defend the Army's systems, networks, and information.
4. Ensure Army information management & information technology investments maximize Army and Joint capabilities.
5. Develop the Army's information technology and information management knowledge & skills to support mission needs.
6. Deliver an integrated enterprise strategy that influences Army and Joint use of information management and information technology in furthering the warfighting capabilities.

The Joint Model - Everything over IP

- **FIRST ...** the Joint Special Operations Command - Fort Bragg
- **THEN** the Joint Communications Support Element - MacDill AFB
 - Iraq
 - Afghanistan
- **NOW!!!**

- **Everything over Internet Protocol**
 - Scalable
 - Flexible
 - Efficient
 - Less cost, smaller footprint, less people.
 - EoIP will converge & reduce training requirements

Current Circuit Based & Telephony Capability

Everything Over IP (EOIP) Refit

JOINT COMMUNICATIONS SUPPORT ELEMENT

To address inefficiencies of traditional bandwidth allocations.....migrate everything to EoIP

MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: FY05 Army Knowledge Management (AKM) Goal 1 Resource Execution
Guidance

- The waiver process allows the CIO/G-6 to comply with the Clinger-Cohen Act by tracking the migration of non-IT funding that is used to purchase IT goods and services.
- Guidance is provided in an annual Goal 1 waiver memo that lists IT and non-IT MDEPS.
- Waivers are processed via a web based application.

**As of 6/1/06,
232 waivers
valued at
\$126.4 million
have been
processed.**

IT Product Procurement Options

Army Small Computer Program Current Contracts - Core Elements:

♦ Commercial off the Shelf (COTS) Information Technology:

PCs Workstations Notebooks Handhelds PDAs
Servers -32/64Bit Storage Thin Client Networking Printers Services

♦ Value-Adds:

Extended Warranties 2 day, On-Site Repair Expedited Deliveries
DoD/Army IT Standards/Interoperability Compliance Networkiness

**Easy Order
Process – thru
ASCP's
“it e-mart”
e-commerce
system**

Army Consolidated Buy (CB) for “Commodity” IT Systems:

- ♦ Army has conducted 2 CBs 4th Qtr FY 05 and 2nd Qtr FY 06 – open to all DoD
Personal Computers Notebook Computers Monitors/Peripherals
- ♦ Cost Avoidance reached 21.5M on 60K systems sold
- ♦ Process runs thru ASCP Website (<https://ascp.monmouth.army.mil>)

**Anticipated
Savings –
30%+**

DoD Enterprise Software Initiatives (ESI):

- ♦ Apr 03 CIO/G6 initiates an Army-wide Microsoft (MS) Enterprise Buy
Army-funded \$78M per year cost, ordering thru ASCP website, provides solid
Asset Management of MS products
- ♦ DoD ESI program success paved the way for the Federal “SmartBuy”
Makes Enterprise SW products available to the entire Federal government –
Oracle was first success; effort led by Army via ASCP; Prosight & WINZIP followed

**\$100M per
year Cost
Avoidance**

DoD/Army Enterprise License Agreements:

Oracle Sybase SAP/ERP Prosight CA-UniCenter FormFlow BPwin/ERwin CITRIX
WINZIP MS Premier Support Popkin Envoke Rationale Rose Quest NetIQ
Puredge Mercury ERP Symantec IA

**Average Cost
Avoidance:
64% off GSA**

Microsoft Enterprise License Agreement

Total Army Cost Avoidance

Cost Avoidance of MS ELA for Desktop / Limited Quantity CLINs

Cost Avoidance for Desktop/Limited Quantity CLINs

- MS Desktop, Exchange Server, etc
- 505,249 total licenses

Cost Avoidance for Single Item CLINs

- FrontPage, Visual Studio, etc
- 55,703 total licenses

Cost Avoidance for MS ELA Single CLINs

Information Technology Enterprise Solutions - Services (ITES-2S)

**Awarded
14 Apr 06**

\$20B over 9-years

Provides Army Enterprise Infrastructure and Infostructure Services Worldwide to support Command, Control, Communications, Computers, and Information Management (C4IM)

Awarded 11 IDIQ contracts

- IBM Corp of Fairfax
- General Dynamics Network Systems
- EDS Corporation
- SAIC
- Lockheed Martin Integrated Systems
- Computer Sciences Corporation
- CACI-ISS
- Booz Allen Hamilton
- Three small businesses
 1. QSS Inc.
 2. Apptis Inc.
 3. STG Inc.

Army Desktop & Mobile Computing (ADMC-2)

**Awarded
24 Apr 06**

\$5B over 10-years

**For desktops, notebooks,
tablets, PDAs,
printers, digital cameras,
projectors & peripherals**

Awarded 9 IDIQ contracts

- Three large businesses
 - CDW Government Inc.
 - Dell Marketing LP
 - Hewlett-Packard Company
- Six small businesses
 - Integration Technologies Group
 - MPC-G
 - NCS Technologies Inc.
 - Telos Corporation
 - Transource Computer
 - Westwood Computer Corporation

Information Technology Enterprise Solutions - Hardware (ITES-2H)

\$10B over 10-years

**Purchase or lease network environment products,
including servers, workstations, Thin-clients,
storage systems, networking & communications
Equipment, VTC solutions & more**

Release No: 05-11-02
Contact: Stephen Larsen (732) 427-6756 Stephen.Larsen@US.Army.MIL

\$5 billion World-Wide Satellite Systems contract will offer one-stop shopping for federal agencies

FORT MONMOUTH, N.J. – Federal agencies – both DoD and non-DoD – requiring commercial satellite terminals and associated services will soon be able to order what they need, when they need it, from the World-Wide Satellite Systems (WWSS) contract, a comprehensive indefinite delivery/indefinite quantity (ID/IQ) contract.

Army officials expect the WWSS solicitation to be released to industry in the first quarter of fiscal year 2006, with contract award slated for the third quarter of fiscal year 2006.

A partnership of the Project Manager, Defense Communications and Army Transmission Systems (PMDCATS) and the Project Manager, Warfighter Information Network-Tactical (PM WIN-T), the WWSS contract will have a ceiling value of \$5 billion over a term of five years.

The WWSS contract will offer six commercial satellite terminal types: Combat Support Service Very Small Aperture Terminals (CSS VSATs), fixed-station satellite terminals, flyaway VSATs, military-certified satellite terminals, prime mover/trailer-mounted satellite terminals and deployable satellite earth terminals. Depending on user requirements, these satellite terminals may be required to operate on any military or commercial satellite in the C, Ka, X and Ku bands.

"We plan to award the WWSS contract to up to six prime contractors," said Kevin Carroll, the U.S. Army's Program Executive Officer, Enterprise Information Systems (PEO EIS). "Each prime contractor will be required to provide complete turn-key solutions, including hardware, software, support services and data."

Savings on Thin Client

Thin Client Architecture

--Versus--

PC-Based Architecture

"The PC has become a network appliance. Many PC users hardly ever use the diskette or CD-ROM drives because their information needs are met via the network."²

WAN

Up to 30% in
TCO savings
@ HQDA¹

Most Substantial TCO Savings³

- Network Administration (55%)
